Product Description

2020 Manufacture Used Concrete Mixer Truck with 9.726L Engine Displacement

Product Description:

Used Concrete Mixer Truck

This is a product overview for our Used Concrete Mixer Truck, manufactured in 2019 and available for sale from 2015 to 2023. This truck is a type of mixing tank truck that runs on diesel fuel and can be used for various construction projects. With a weight of 16500 kg, it is a heavy-duty and reliable option for your concrete mixing needs.

Good Condition

Our Used Concrete Mixer Truck is in excellent condition, ensuring that it will perform at its best for your construction projects. We have thoroughly inspected and maintained this truck to ensure its quality and functionality.

High Quality

As a leading provider of construction equipment, we understand the importance of quality. That's why our Used Concrete Mixer Truck is made from high-quality materials and designed to meet industry standards. You can trust that this truck will deliver consistent and reliable

performance.

Efficient

With its powerful diesel engine, this truck can efficiently mix and transport concrete to your desired location. This will save you time and labor costs, making your construction projects more efficient and productive.

Durable

Our Used Concrete Mixer Truck is built to last. It is designed to withstand heavy use and harsh working conditions, making it a durable and long-lasting investment for your construction business.

Cost-effective

Investing in a Used Concrete Mixer Truck is a cost-effective solution for your construction needs. It is a more budget-friendly option compared to buying a brand new truck, while still delivering high-quality performance.

Reliable

You can rely on our Used Concrete Mixer Truck to deliver consistent and reliable performance for your construction projects. Its efficient and durable design, combined with regular maintenance, will ensure that it will be a reliable asset for your business.

Rudder Direction

This truck is available in both Left Hand Drive (LHD) and Right Hand Drive (RHD) options, providing flexibility for your specific needs and location.

Overall, our Used Concrete Mixer Truck is a top-notch product that offers good condition, high quality, efficiency, durability, cost-effectiveness, and reliability. Contact us today to learn more and make this truck a valuable addition to your construction equipment fleet.

Used Concrete Mixer Truck – SINOTRUK 371

Product Description

The Used Concrete Mixer Truck is a heavy-duty truck designed for the transportation and mixing of concrete. It is manufactured by SINOTRUK, one of the leading truck manufacturers in China. The model number of this truck is 371, indicating a powerful engine and high load capacity.

Application

The Used Concrete Mixer Truck is commonly used in construction projects, particularly for the transportation of concrete to building sites. It is also used in road construction and other infrastructure projects that require the use of concrete. This truck is suitable for both small and large-scale projects, making it a versatile and essential tool in the construction industry.

Features

This Used Concrete Mixer Truck is equipped with a Shacman engine, known for its reliability and durability. It has a powerful 9.726L engine displacement, providing excellent performance and efficiency. The truck operates on diesel fuel, making it cost-effective and environmentally friendly.

The truck is a 6*4 driving type, which means it has six wheels and four of them are responsible for driving the truck. This configuration allows for better control and stability, especially when carrying heavy loads. The truck is also equipped with a sturdy concrete mixer, ensuring that the concrete is mixed thoroughly and evenly during transportation.

Manufacture and Year

The Used Concrete Mixer Truck is manufactured in 2019, making it a relatively new model. It has been well-maintained and is in excellent condition, ready to be used for any construction project. The truck was first used in 2015 and is expected to be in operation until 2023, making it a cost-effective investment for any construction company.

Conclusion

The Used Concrete Mixer Truck is a reliable and efficient vehicle for any construction project. With its powerful engine, sturdy design, and excellent condition, it is a valuable asset for any construction company. Choose SINOTRUK 371 for your next concrete transportation and mixing needs.

Packing and Shipping:

Our used concrete mixer trucks are carefully packaged to ensure safe and secure transportation. Each truck is wrapped in protective materials and placed on a sturdy pallet for easy handling. We also use sturdy cardboard boxes and straps to secure the truck and prevent any damage during shipping.

Shipping:

We offer both domestic and international shipping options for our used concrete mixer trucks. For domestic shipping, we use reliable freight carriers to ensure timely delivery to your desired location. For international shipping, we work with trusted international shipping companies to ensure your truck arrives safely and on time.

Once your order has been processed and packaged, we will provide you with a tracking number so you can monitor the status of your shipment. Our team will also assist with any necessary customs documentation for international shipments.

We strive to provide efficient and reliable shipping services to our customers, ensuring that your used concrete mixer truck arrives in excellent condition and ready for use.
